

ES Directory Summer 2017

Dear all

Welcome to the Summer 2017 issue of the ES Directory. Thank you to everyone who has sent in suggestions for useful products and services. New entries this issue include:

- more shielding suppliers
- non-metal mattresses with no chemical fire retardants and made with BEECHWOOD SPRINGS
- an EHS refuge in Scotland
- a website of hotels without wi-fi

Please keep them coming – either email info@esdirectory.org.uk or send to BM Box ES-UK, London WC1N 3XX, marking the envelope ES Directory. Please include postal addresses and telephone numbers for suppliers. **Do not just send web links!** We do not have the resources to follow these up.

Please note – we are interested in products and services that measurably reduce the amount of EMF exposure, or enable people to avoid places which have high EMF levels – no pendants or herbs please.

CONTENTS

- A – Suppliers of shielding products and/or surveys and detection equipment
- B – Lighting
- C – Electricians
- D – Computer equipment & TV
- E – Telephones
- F – Food Shopping
- G – Opticians, dentists etc.
- H – Miscellaneous including places to stay

The information on this list is as accurate as possible but we cannot accept any liability for errors or omissions.

Email: healthbuild@me.com

Danell low-EMF wall, ceiling, table and standard lamps. Details of Danell lamps at www.danell.de.

NB: If you buy table or standard lamps they come with a German plug. This will need to be replaced with a UK plug and the appliance properly earthed. If in doubt consult a qualified electrician.

Alternatively you can purchase a special adapter which will earth the appliance correctly, NB Normal Continental/UK adapters WILL NOT WORK AND WILL CREATE VERY HIGH FIELDS. Try the Schuko to UK mains adapter from Maplins

Lightbulbs

Maplins Head Office, Maplin Electronics, FREEPOST MAPLIN, Brookfields Way, Manvers, Rotherham, South Yorkshire, S63 5DL. Customer Service and Technical Support: Tel: 0333 400 9500.

www.maplin.co.uk

Maplins offers 'Rough Service' bulbs and coloured reflectors. They also sell non-transformer LED bulbs, if you can tolerate these.

They supply earthable switched brass lamp holders if you want to construct your own earthed and shielded lamps, plus converters to convert bayonet cap fittings to Edison screw fittings, and vice versa.

These items are also available from other companies.

The Base Camp

The Old Bakery, Clifton Road, Littlehampton, West Sussex, BN17 5AS. Tel: 01903 723853.

<http://www.base-camp.co.uk> Email: spares@base-camp.co.uk

Range of paraffin lamps. Also supply odourless, sulphur-free paraffin.

C. ELECTRICIANS – who have knowledge and experience of carrying out electrical rewiring for people with ES.

Coulson & Son Ltd

Graham Thorn is experienced in installing shielded cabling, demand switches, radial circuitry, low electrosmog lighting and changing mains supply cabling.

Do you know a good electrician whom we could add to this list? Maybe you "tamed" one yourself, who would now be happy to carry out work for others.

D. COMPUTER EQUIPMENT & TELEVISION

BEMI

Törnevalla Gamla Skola, 590 62 LINGHEM, Sweden
Tel: 0046 (0)13-74 000. <http://www.bemi.se> tegen@bemi.se

info@optoacoustics.com
Contact Dr Yuvi Kahana.

Their MEG Optical Microphone is a totally EMF-free microphone which can be used with voice-dictation software. The sound is converted directly to light and travels up a fibre-optic cable. The product is expensive but there is a possibility of group discounts.

Safelevel.com

Technology Alternatives Corp. 1950 NE 208 Terrace, Miami, FL. 33179
Tel: 001 800 222 3003 or 001 305 933 2026 after 2pm. www.safelevel.com
Shielded computers offgassed prior to sale, designed for people with ES/MCS including light-free displays.

Digital TV

Many people are reporting problems with digital TVs. One way round this might be to use the smallest possible digital decoder and put it in the back of an analogue TV, or if this still causes problems, in the back of a video recorder and stay in another room whilst it is on. You can then watch videos of TV programmes on an analogue TV. Not ideal, but better than nothing.

E. TELEPHONES

Digital Cordless (DECT) phones which do not emit microwaves when not in use, unlike standard DECT phones which emit microwaves constantly.

Siemens Gigaset range (some models only)

www.gigaset.com. Service Hotline 020 3695 3111
Available in the Argos Catalogue! If put wholly in ECO mode, these DECT phones are radiation-free when not in use, and transmit less when being used.

Swissvoice

www.swissvoice.net

The swissvoice ePure 2 DECT phone has zero microwave emissions in stand-by mode.

Some people with ES have bought these low radiation phones for their neighbours as a substitute for their standard DECT phone.

Beneficial Environments

Airtube headsets for mobiles, DECT and wired handsets. Video advice on how to use them.

www.beneficialenvironments.co.uk

For address see above under Surveys

EMF Safety Superstore (details in section A) sell air tube headsets with microphones which can be used at the end of an extension cord (or several joined together) – plus a jack to connect them to any normal phone.

However, many people simply use hands-free phones. Some people have problems with the small LCD displays on some makes of phone. It is worth trying a hands-free phone without a display if you are very sensitive, eg. The BT Big Button 100 phone, and earthing it with wire from one of the metal screws on its base to the earth pin of a socket. The new BT Big Button 200 is really rubbish – try to source the 100.

Please mention the ES Directory when contacting suppliers

NOTE: Whether or not you have broadband, make sure you have ADSL microfilters on all your telephone sockets, or the broadband signal comes up the phone line and can cause people to react when using the phone. Available from Maplins.

F. FOOD SHOPPING
